# WATER & WASTEWATER MOBILE TRAINING LAB

## The Latest Hands-on Training Delivered at Your Doorstep

TEEX, a leader in hands-on training, now delivers the latest water & wastewater analytical testing and laboratory training to any location, using a unique, self-contained mobile training lab. Your laboratory and operational staff will get personalized, hands-on training in all techniques and procedures they need to know to assure the quality of potable water and to meet the regulatory requirements for wastewater treatment and effluents.

Your staff will actually perform routine and advanced laboratory analyses, not just listen to lectures or watch others. The mobile laboratory can be set up at any location and is designed with your safety as a priority. Save money and reduce employee travel and lodging costs by scheduling a class at your location.

### Courses Offered

Intermediate Water Laboratory (32 hours, TCEQ-approved)

Intermediate Wastewater Laboratory (32 hours, TCEQ-approved)

### Audience

- Cities and municipalities
- Private industries
- Chemical/petrochemical refineries
- Regulatory agencies
- Analytical testing laboratories
- Environmental professionals

### Mobile Laboratory Equipment

The 41-foot, self-contained mobile laboratory can accommodate up to 12 students in a class. The fully equipped lab includes up-to-date analytical instruments and apparatus such as:

- Spectrophotometers
- pH meters
- Ion selective analyzers
- Total Organic Carbon analyzer
- Advanced digital microscopes
- Computers & lab data software
